Giovanni Costanza

Technical Procurement Manager

Silversea Cruises

Giovanni Costanza, mechanical engineer, has been part of the Silversea Cruises' team since May 2014, first as a Technical Project Manager and currently as the company's Technical Procurement Manager.

Since September 2017, Giovanni is responsible for technical purchases, stock & maintenance plan (on AMOS software), involved in special projects like dry docks, and also responsible for the technical budget monitoring of Silversea Cruises.

Prior to joining Silversea Cruises, Giovanni has gained valuable experience working for Delfi – FINCANTIERI and for "Institut Jean le Rond d'Alembert - UPMC Paris VI", a research institute in Paris, where he was employed as an R&D Test engineer.

Born and raised in Rome, Italy, Giovanni holds a Master of Science (Laurea Magistrale), speaks French and English fluently, is good at pursuing personal and team goals and enjoys travelling.
